

ECE SOPHOMORE RECEPTION

The Department of Electrical and Computer Engineering (ECE) welcomed 136 new sophomore majors this year, inviting the newcomers to a welcoming reception to introduce them to the program. The agenda included a greeting from Department Head T.E. (Ed) Schlesinger, introductions, and invitations by speakers from student and campus organizations. Faculty members were on hand for questions.

The B.S. in ECE is a broad and highly flexible degree that is accredited by the Accreditation Board for Engineering and Technology (ABET) and is structured to provide students with the smallest set of constraints consistent with a rich and comprehensive view of the profession. Students are encouraged and stimulated to explore multiple areas of theory and application.

For more information about undergraduate study in ECE, visit www.ece.cmu.edu.

WinECE WELCOME DINNER

Women in ECE (WinECE) gathered to welcome new undergraduate and graduate women and returning students during a dinner program planned by WinECE's executive committee. Students had the opportunity to meet Susan Farrington, WinECE's advisor and the new Director of Alumni and Student Relations. The evening's speaker, Dawn Song, Assistant Professor of Electrical and Computer Engineering and Computer Science, discussed her path to a career as a professor.

All women in the ECE Department are invited to join WinECE, an organization for the professional development of women students and alumni.

For more information on WinECE, visit www.ece.cmu.edu/~winece.
